Delighted Clients Say It All ...

"We've been using Premier Brick for around 8 years now. One of the things we like about them is their range of unusual brick sizes. The bricks they offer look stunning on many of the homes we have designed. Many of the group home builders use bricks of standard sizes, so being able to use bricks of different sizes and colours allows home designs to stand out from more 'run-of-the-mill' homes.

Premier Brick don't just offer a good range of bricks though. They also have terrific support surrounding their products. This means that anytime we have a question, or need to know something we can contact Premier Brick and get a fast response. One of the big benefits of using Premier Bricks is that we are able to design homes using their products that stand out and get noticed. One particular home we designed is a normal shaped house, however we used the Premier Estate brick and stack-bonded it to create a unique design. As a result, everyone who sees this home comments how great it looks.

Brick is often perceived as the best all-round cladding system in NZ. It is durable, easy to clean, doesn't require painting, fire resistant and needs very little maintenance. Using the right bricks, in the right place can make a simple home look amazing.

Premier Brick makes it a lot easier for us as Architectural Designers to design amazing homes for our clients.

We love their great products and fast service."

Trent Simpkin / Arcline Architecture

"We have been using Premier Brick for five years now.

The first thing I like about them is that they are a New Zealand owned and based company. So everything is made locally. That's a real positive for us. As many other bricks are made overseas.

The next thing I like about Premier Brick is that they are a fast moving and innovative company. And often come up with new products.

I love the fact that all the people at Premier Brick are happy and positive. This makes it a pleasure to do business with them.

A great benefit is that the bricks they offer are a clean lined architectural product which is readily accepted by a lot of our customers. This means that the bricks from Premier Brick are more popular than bricks from other suppliers because they look better.

Premier Brick are super responsive and customer focussed. I like that there is a real consistency when it comes to dealing with their team. So, you get to have the same people looking after you for a long time. This is really helpful from our viewpoint. A good example is I've had the same rep at Premier Brick for two and half years over a number of different house projects. (This is not that common and makes my life a lot easier.)

In summary it's pretty simple. "Premier Bricks have Great Products Good People and Excellent Service."

Wilson Hawes / Signature Homes (GBL)

5.0 ★★★★★
"New Zealand most trusted
brick supplier!"

WHY BUILD WITH BRICKS ? THE BEST SOLUTION FOR YOUR HOME ...

+ TIMELESS BEAUTY

The number 1 building material since 4000 BC. A look that retains its value despite changing fashions.

+ RESALE VALUE

Brick is the number 1 cladding for highest resale value for your home.

+ SECURITY

Enjoy the safety and security of an extremely solid cladding/exterior. Keep your family safe.

+ FIRE SAFETY

They do not catch fire. Peace of mind.

+ DRY

Enjoy peace of mind that with the assurance of a veneer cavity system, it means moisture can escape between the bricks and timber frame. No risk of moisture becoming trapped or rotten timber!

+ WEATHERTIGHT

Almost totally unaffected by environmental conditions. Extremely weather proof.

+ DURABILITY

Enjoy the superior durability of reconstituted stone. Built to withstand the weather and the test of time.

+ LOW MAINTENANCE

Enjoy the luxury of extremely low maintenance. Does not deteriorate like most other claddings. You save approx \$1000 per year in ongoing maintenance compared to other claddings.

+ BE CREATIVE

Express your imagination and personality with creative designs. Probably the most versatile cladding.

+ COST EFFECTIVE

The best value for money cladding option for your home.

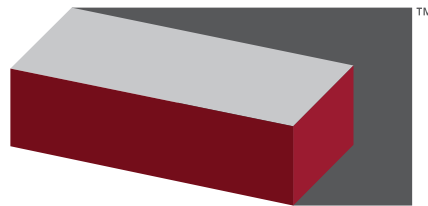

+ NOISE BARRIER

STC rating of 66, meaning excellent noise barrier from traffic etc...

WHITE CEMENT

Premier White Cement is a high quality, high strength multi-purpose white cement. This cement is best used for mortar matching lighter colour products such as Premier Bricks or Premier Pavers. For optimum colour consistency use in conjunction with the Premier Washed Sand. AVAILABLE IN 20KG BAGS.

MORTAR MIX

Premier Mortar mix is a graded sand, cement, and additive, dry mixed product for use with Concrete masonry and Clay Veneer for residential and commercial applications. This Premier mortar mix is manufactured to specification in New Zealand utilizing automated weighing and batching equipment along with strict quality control measures. AVAILABLE IN 25KG BAGS. It is available in 3 colours:

WHITE

NATURAL

CHARCOAL

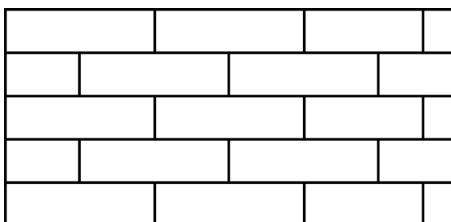

MATCHING MORTAR/ OXIDE

Premier Oxides are UV Stable and are a blend of high quality, synthetic iron oxides. Packaged in water-soluble bags with an outer paper bag for protection. These oxides are considered be one of the most economical and simplest method of adding colour to concrete whether at a batching plant or on site. Pigments used in Premier oxides meet both European and American standards.

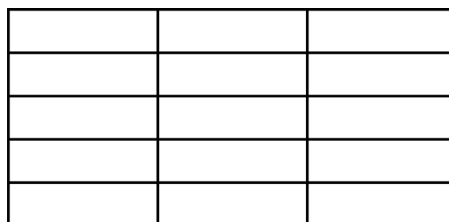

COLOUR & TEXTURE & PATTERNS

LAYING PATTERNS

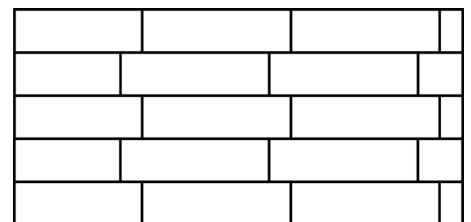

STRETCHER BOND

This is the classic laying style.

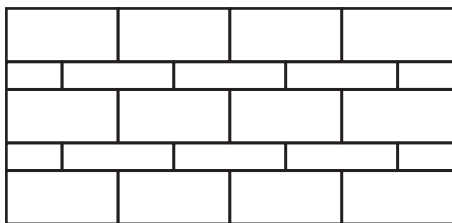

STACK BOND

This is a more modern style. Bear in mind that this style will cost more to install.

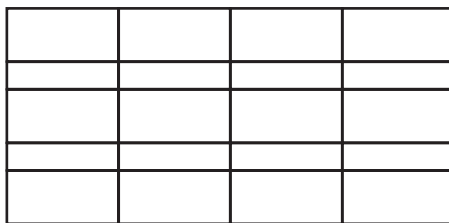

STEP BOND

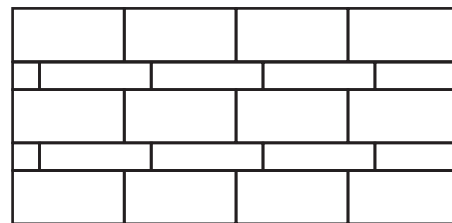

This is a new take on the Stretcher Bond style.

RANDOM COURSING 1

RANDOM COURSING 2

RANDOM COURSING 3

(* Using Mansion & Estate together or Country & Modena together.)

MORTAR

You may be surprised to know the colour and type of mortar joint (between the bricks) can have a significant impact on the look of your bricks.

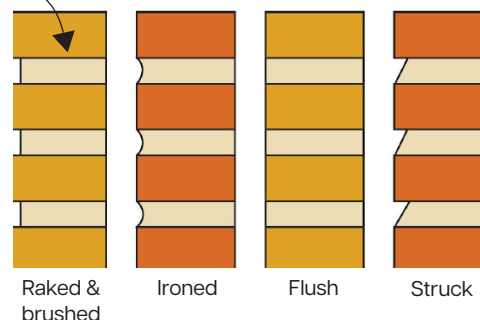

COMMON MORTAR COLOURS

- Natural
- White
- Charcoal
- Coloured mortar to match the brick colour

COMMON MORTAR JOINTS

The mortar joint refers to how the band of mortar between the bricks is finished. We strongly recommend the raked & brushed finish as it results in a cleaner & more consistent overall look.

Our recommendation!

HOW TO CHOOSE YOUR BRICKS

STEP 1: DOWNLOAD & READ

Download and read our "How to decide on the right cladding for your new home" guide, to help you avoid any pitfalls and disappointments.

Scan here:

You can ask us to post you a hard copy too!

STEP 2: GO FOR A DRIVE AROUND!

Ask for a Premier Brick address list by calling 0800 22 22 98 or emailing info@premier-group.co.nz & go for a drive to view the bricks in action! This is by far the best way to choose your bricks as you can see how they work with roof, joinery & driveway colours & styles! Be sure to take photo's of the ones you like, so you can share your photos & ideas with us when you get back!

STEP 3: CHECK OUT OUR PHOTOS!

Go to www.premierbrick.nz & browse through the many great photos! Also be sure to check out the beautiful driveways & patios too to ensure all your colour choices tie together for the ultimate outcome! Also browse through the "Premier Brick Portfolio" & the "Premier Brick Brochure".

STEP 4: REQUEST REAL SAMPLES!

Narrow your decision down to 2 or 3 colour options & combinations, then contact us for your free samples. We will courier them direct to you! Also be sure to request our driveway & patio samples to help you tie it all together for the ultimate result! You can also view our samples in the showhomes of most reputable House building companies in NZ.

STEP 5: MAKE UP YOUR MIND!

Now you have done the research, its time to make your decision! Consider things like borders, soldier coursing, corbelling, colour combinations, size combinations, mortar colour, etc. Then contact us & your builder to confirm your choice! Well done!

Frequently Asked Questions

Q What is the delivery lead time?

A All bricks are made to order to reduce batch & colour variation. Please allow 6-10 weeks. We can give you a guaranteed delivery date when you order. (If you need them sooner, please contact us urgently to discuss options)

Q Do you deliver direct to site?

A Yes we do! NZ wide!

Q How much does freight cost?

A We will quote a fixed price for your job.

Q Where can I see a sample?

A We can courier samples direct to you! Please narrow down your decision to 2-3 colours first.

Q Do you have showhomes or displays?

A Yes we have many showhomes NZ wide. Please call for a list of addresses.

Q Do you have approved installers?

A Yes! Please contact us for an installer in your area.

Q What warranty do you offer?

A Lifetime warranty (100 years).

Q Will there be colour variation in the brick or mortar?

A Yes there will always be some colour variation especially in the mortar due to the many variables eg. moisture, temperature etc. Please also expect more variation in colours such as Ash.

Q Will there be scratches on my Rumbled bricks?

A Yes there will be scratching/marks on the face of the bricks caused by the rumbling process. This all adds to the weathered, timeless appeal of rumbled edge brick. Some marks will weather away over time.

Q Do I need to seal my Premier Bricks?

A No, it is not recommended. With the darker colours, you may notice some fading over time and you may choose to acid wash and seal these colours anytime in the future. 99.9% of customers choose NOT to seal.

Q How do I obtain a quote for my house?

A Please email us your house plans for a free quotation.

Q How many sizes & colours do you have?

A 9 designer colours & 5 stylish sizes. The Estate, Mansion and Chateau bricks are only available in straight edge, Modena and Country sizes available in straight edge or rumbled edge.

Q Is there an extra cost for rumbled edge bricks?

A No! We offer them at the same price to make it simple for you!

Q Do you supply sand, cement & oxides ?

A We supply white cement & all oxides if you require coloured mortar. Pre-mixed bagged mortar is also available in 25 kg bags.

Q Should I use coloured mortar?

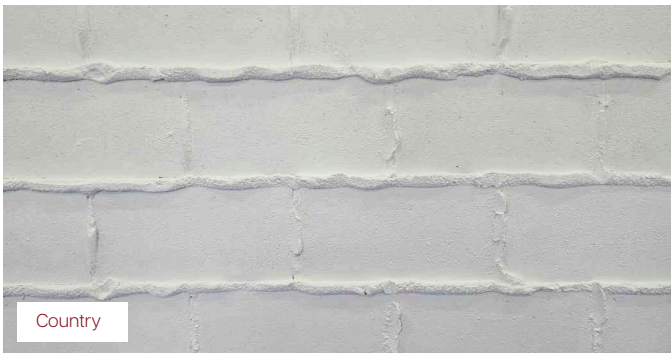

A The darker brick colours require this. Please see the Premier Brick Manual for more info. For White & Soapstone colours we recommend that you use premier white bagged mortar mix. For all other colours we recommend premier natural coloured bagged mortar mix.

TECHNICAL INFORMATION

PLEASE SEE THE "PREMIER BRICK TECHNICAL MANUAL" FOR COMPLETE INFO. ESSENTIAL READING FOR BRICKLAYERS & BUILDERS. DO NOT LAY PREMIER BRICK UNTIL YOU HAVE READ AND SIGNED THE PREMIER MANUAL! THIS IS COMPULSORY BEFORE LAYING OUR PRODUCT. WARRANTY DOES NOT APPLY UNLESS THIS IS FOLLOWED.

Email info@premier-group.co.nz for your copy or download from our website www.premier-group.nz

Premier colours are unique and very consistent. To protect these colours and give the best result we recommend that the following colours are mortar matched.

BRICK COLOUR	SEALING IS AN OPTION	MUST BE MORTAR MATCHED
IRON STONE	✓	✓

SPECIAL TERMS AND CONDITIONS FOR IRON STONE BRICKS:

1. Lay very carefully and sponge off thoroughly with clean water during laying to prevent scratching and staining.
2. Premier bagged mortar-Charcoal colour MUST BE USED. NO natural or white mortar to be used!! This helps to prevent a patchy appearance on the finished veneer.
3. It is important to dry-cut Iron Stone bricks to prevent 'wet slurry' staining the surface of the bricks.
4. Bricklayer MUST be given explicit instructions on how to lay Iron Stone colour and MUST read and sign the Premier Brick Manual as understood BEFORE laying.
5. Acid wash only if required. DO NOT acid wash without explicit instructions and training from Premier Group.
6. If you choose to seal your bricks, please watch our video regarding this and talk to us first. DO NOT seal without explicit instructions & training from Premier Group.

Your Brick Manual

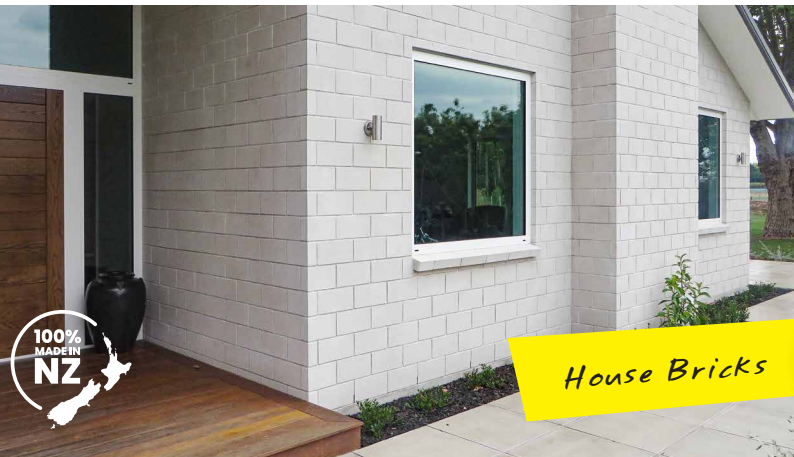

Premier concrete products are handmade to your order and as such feature quality raw materials. Our concrete is made from premium cement aggregates, oxide and sand and being natural ingredients, variations in colour can occur from brick to brick and batch to batch. Efflorescence, hairline fissures or crazed surface and variations in dimensions is a normal phenomenon of all concrete products. These are normal attributes and highlight your product's individual character and closeness to naturally occurring stones. Specifications subject to change without notice. PLEASE NOTE: All colour reproductions printed in this brochure are as close as possible to the original, however due to the printing process, some variations in colour and shading may occur.

VERY IMPORTANT NOTICE: PRODUCT LAID IS DEEMED TO BE ACCEPTED

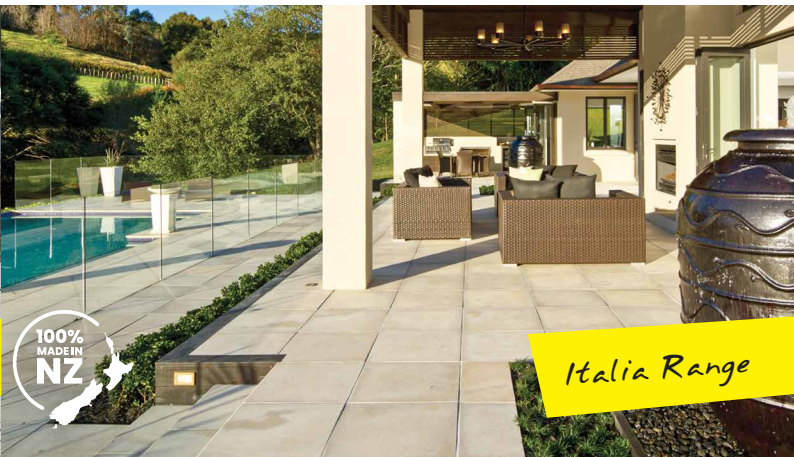

QUALITY: If for some reason, you are not completely satisfied with the quality of the product, please contact us immediately. We will not accept any claims for labour costs to remove or re-lay products that have been installed. Our warranty is limited to free replacement of product, deemed to be unsatisfactory by us, before installation takes place. Terms and conditions apply. Please see website for more information.
